# LAPTOPS 4 HOPE

## *A HOLISTIC APPROACH DRIVES OUR MISSION*

Due to the importance of using different technologies and digital tools in everyday tasks at the university, our students have shown a great need for having laptops or tablets. This is especially important for Jericho IT scholarship holders but also for all other students that need laptops for basic everyday school tasks.

Therefore, we are presenting you our Laptops for Hope campaign in hopes that you will find interest in our holistic scholarship and donate a laptop for our students or donate to help change one life at a time. You will be part of creating a new generation of change-makers in Bosnia and Herzegovina.

**THE INVESTMENT IN ONE PERSON IGNITES A RIPPLE EFFECT OF HOPE AND IMPACTS ENTIRE FAMILIES AND COMMUNITIES IN BOSNIA AND HERZEGOVINA.**

Please check our website [www.jerichofoundation.org](http://www.jerichofoundation.org) for more information and see how you can become part of the Jericho family.
